## Projects

---

2022

### Rimulation (Buy Land as NFT)

**Tools & Technologies:** Nextjs, HTML, CSS, Bootstrap

**Team Size:**2

**Role:** Senior UI Developer

we've developed and designed a frontend for a dApp that shows a map to an individual from which a user can pick a tile of land from a specific position on a map which then this tile gives you a coordinate from which we generate an image of that land and then mint new NFT associated with this coordinate of land.

2021

### Sep24 WebApp (Orunpay Product)

**Tools & Technologies:** React, MaterialUI, Redux, HTML

**Team Size:** 5

**Role:** UI Developer

Sep24 WebApp interacts with anchors and wallets interact on behalf of users. This improves user experience by allowing wallets and other clients to interact with anchors directly without the user needing to leave the wallet to go to the anchor's site more.

2021

### Gambling Dapp

**Tools & Technologies:** HTML, React, CSS, Bootstrap

**Team Size:** 3

**Role:** Senior UI Developer

For a US-based client, we have created a Trading App based on cryptocurrency. We used the Apexchart library for graph and crypto compare API for live data feeds of cryptocurrencies prices. Users can see the history of bidding. Integration with solidity contract. Setting up wallet integration like connect wallet disconnect wallet claim winning tokens and many more.

2021

### Sell Apartment Online

**Tools & Technologies:** Vuejs, HTML, CSS, Bootstrap

**Team Size:** 4

**Role:** Junior Web Developer

We created a web app where Users can Buy 1bhk,2bhk, and 3bhk flats online based on availability. In this web app, users can see the 2D view of the apartment, user can filter apartments according to price, apartment floor, and square feet. Use API for the data feed. Implement a video carousel, live filtration, and many more.
